Thursday Extra 4:00 in CS Commons

Next week: on Tuesday!!!

Prof. Steve Huss-Lederman, Beloit College:

Open Energy Dashboard (open source project for monitoring energy resources via Web)

Mentor sessions (evolving)

eSpeak:

- once in a while, may hear extra sounds
- typically, when short line follows a long line
- possible solution: add spaces to short line

Reminder: Supplemental Problem 1 due next Friday

Conditional Statements

Questions

Clicker questions

What can you say about Question 1 on Quiz 2?

- A. The question is a [slightly edited] version of Step 12 on the lab, "Using the Scribbler 2 and Basic Input"
- B. The question uses ideas from last Friday's lab regarding basic input and using the Scribbler robot to beep notes
- C. The question stated the streamlined text of documentation for the rBeep command, as described in MyroC documentation
- D. All of the above
- E. None of the above

What is printed by the following code segment?

```
int a = 2;
int b = 4;
if ( a == 4)
    printf ("yes ");
else
    printf ("no ");
if ( a = 3 )
    printf("%d ", a);
    if ( b )
        printf("%d ", b);
```

A. yes 2 4

B. no 3 4

C. yes 4

D. no 4

E. None of the above

What is printed by the following code segment?

```
int a = 2;  
if ( a == 4 )  
    printf ("yes ");  
else  
    printf ("no ");  
if ( a = 3 )  
    printf("one ");  
if ( a == 3 )  
    printf("two ");
```

- A. yes one two
- B. no one two
- C. yes
- D. no
- E. None of the above

What is printed by the following code segment?

```
int c = 3;
switch (c) {
    case 3:
        printf("Matey! ");
    case 7:
        printf("Time. ");
    default:
        printf("Walk the plank!");
}
```

- A. Matey!
- B. Matey! Time. Walk the plank!
- C. Matey! Walk the plank!
- D. Does not compile
- E. None of the above
